ABOUT

The company was established in 2021. Our original studio, MSL Studio, founded in 2023, serves as the company's photography and video studio.

Our company help people raise awareness of global events and foster cultural exchange through our extensive network.

As event reporting specialists, we spotlight international events using our consulting expertise and outreach skills.

OUR WORK

SPORTS EVENT

Volta A Catalunya

An annual professional road cycling stage race held in Catalunya, Spain.

MUSICAL EVENT

Team Nosaru

A traditional Japanese group of musicians performed in the Sagrada Familia crypt.

FASHION EVENT

BBFW

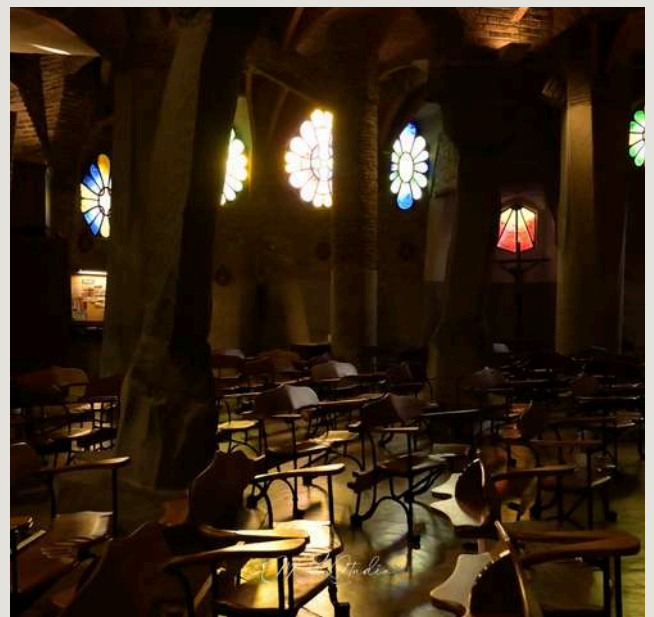

An annual event held in Barcelona, Spain, showcasing the latest trends and designs in bridal fashion.

OUR DOCUMENTARY

The "Gaudi Code" is an original documentary by Japanese architectural engineer Dr. Yuya Tanaka, combining Gaudi's architecture with precise measurements and research findings. This film not only presents Gaudi's work in a new light but also delves into the Gaudi Code, exploring mythology, geometry, and natural science at the sites of his iconic architecture.

Filmed over a year in Barcelona, this documentary reveals the hidden secrets of Gaudi's designs, allowing viewers to appreciate the artistry and beauty of his architecture. We hope this film will inspire future generations and offer a fresh perspective on Gaudi's work.

In 2022, we hosted independent screenings at the University of Barcelona in Spain and the Tokyo Women's Employment Support Center Hall.

MUSICAL EVENT

Team Nosaru is a group formed by combining the traditional Japanese art of Noh and Japanese musical instruments (sho, biwa, shakuhachi, and koto) with Western vocal music. From August 21 to September 5, 2023, the group toured France, Denmark, and Spain, participating in music festivals and conducting workshops. In Spain, they performed in the crypt of the Sagrada Familia, where 240 attendees enjoyed a powerful performance of original music and Noh dance that blended Eastern and Western elements.

We have filmed an uncut performance in the crypt of the Sagrada Familia, a World Heritage Site that carries on the spirit of the master Gaudí. By uniting East and West in a "Prayer for Peace," we aim to convey the profound depth of traditional Japanese culture, while also encouraging Japan's younger generation to reaffirm their "interest in their own country's cultural arts," "the importance of preserving them," and "the spirit of nurturing the richness of Japanese culture."

EVENTS

We have produced a wide variety of filming projects, including international events: Cannes Film Festival, MWC, BBFW, Volta a Catalunya, cooperate with CCTV to conduct interviews
